

S.S. Jain Subodh College of Global Excellence, Sitapura

Best Practices of the college

Best practices add commendable value to an institution and are considered as reliable benchmarks of the success of the institution.

S.S. Jain Subodh College is one of the fastest growing colleges in Jaipur established in 2015 as the 19th institution of Subodh Shiksha Samiti. The college decided to implement many practices for accomplishing the aim and vision of the institution. Following are a few of the best practices being run in the college.

1. Commitment to Society

The college is committed to create sense of belongingness towards the society and the surroundings among all the students and the faculty members through some practices in every session.

The college has adopted a school 'Govt Senior Secondary School, Salagrampura' in 2016 and it takes care of its requirements since day of adoption. The college team goes to school and provides woolens, Stationery Articles, food items etc to the students in every session. The college also participates in the infrastructural development of the school by providing electric fans and other furniture for class rooms and the school office.

Blood Donation camp is a very noble practice being organized every year and more than 700 units have been donated in last 6 years.

We are associated with RAYS, Asha ki Ek Kiran, an NGO working for AIDS children and contribute there the needful articles time to time. Besides these, Nukkad Natak by students to spread social welfare messages, plantation in their surroundings, clothing and food aids to needy people, hanging bird feeders in summers, Covid-19 Vaccination camp etc.

2. Commitment to the students

Our academic achievement is excellent when judged and continues to improve year after year. Our emphasis is on the quality of learning, supported by high quality teaching, and we are committed to reviewing our progress and striving to improve as a College even further

To achieve the goal of inculcating the holistic development of the students and being preparing them for their successful future, the main emphasis of the college is in academic area. Regular classes, good percentage of student's presence in classes, medium-wise sections, providing notes, question banks to the students, extra remedial classes, disciplined environment and not but the least the pre university examination based on Rajasthan University Pattern after syllabi completion are the thrust area of the academic.

Green Campus

In last 7 years the college has been vastly changed from semi arid zone to a lush green campus where about 100 variety of flora including perennial and seasonal plants of fruits, vegetables, herbs, shrubs, flowers are flourishing with the drip irrigation facility. The commitment toward the environmental conservation is inculcated with the installation of solar panel, water harvesting system, solid waste management.
